

IN THE CLAIMS

*Please amend claims as follows:*

1-2. (Canceled)

3. (Currently amended) A polyvinyl alcohol film formed from a resin composition, said resin composition comprises:

\_\_\_\_\_ a polyvinyl alcohol resin (A),

0.1 to 50 parts by weight of an inorganic filler (B) per 100 parts by weight of the polyvinyl alcohol resin (A), and

0.1 to 50 parts by weight of a plasticizer (C) per 100 parts by weight of the polyvinyl alcohol resin (A), said plasticizer (C) contains trimethylolpropane,

wherein said polyvinyl alcohol resin (A) comprises:

\_\_\_\_\_ a first polyvinyl alcohol resin (a1) having a degree of hydrolysis of not less than 55% by mole to less than 82% by mole, and

\_\_\_\_\_ a second polyvinyl alcohol resin (a2) having a degree of hydrolysis of not less than 82% by mole to not more than 99.99% by mole,

wherein a ratio of the first polyvinyl alcohol resin (a1) to the second polyvinyl alcohol resin (a2) is from 55/45 to 80/20 by weight, and a difference in degree of hydrolysis between the first polyvinyl alcohol resin (a1) and the second polyvinyl alcohol resin (a2) is at least 3% by mole, and

wherein said polyvinyl alcohol film dissolves in water at 20°C within 10 minutes, has an  $\alpha/\beta$  ratio of not more than 10, in which  $\alpha$  is a storage modulus of the film at 20°C in a dry atmosphere and  $\beta$  is a storage modulus of the film at 20°C and 80% RH, and a glass transition temperature of not more than 20°C ~~The film of claim 1, which is prepared by forming a film from a resin composition [I] containing at least two kinds of polyvinyl alcohol resins (A) having different degrees of hydrolysis.~~

4-6. (Canceled)

7. (Currently amended) The film of claim 3, ~~which further contains an~~wherein the inorganic filler (B) ~~having~~has an average particle size of 1 to 10  $\mu\text{m}$ .

8. (Canceled)

9. (Currently amended) A package of a chemical comprising a polyvinyl alcohol film of claim ~~[[1]]~~3, and a chemical.

10. (Currently amended) The package of claim 9, wherein said chemical ~~charged~~ is a liquid at ordinary temperature.

11-16. (Canceled)

17. (Previously presented) A package of a chemical comprising a polyvinyl alcohol film of claim 7, and a chemical.

18-21. (Canceled)
